

KISHORE S

Pondicherry, India | +91 8778223821 | kishoresam969@gmail.com | linkedin.com/in/kishores16 | github.com/kishores16

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience in Python, SQL, and Power BI, and a strong foundation in exploratory data analysis, statistical modeling, and dashboard development. Skilled at transforming raw datasets into actionable business insights through data cleaning, feature engineering, and visualization. Experienced with Microsoft Excel for reporting and analysis, with practical exposure to data quality validation and cross-functional collaboration. Quick learner actively building expertise in Tableau and Excel VBA macros, backed by a strong academic foundation (B.Tech Information Technology, CGPA 8.0) and a track record of delivering data-driven projects independently and in team settings.

CORE TECHNICAL SKILLS

- Data Analysis & Exploratory Data Analysis (EDA): data profiling, trend and anomaly detection, feature exploration
- Programming & Data Manipulation: Python (Pandas, NumPy, scikit-learn), SQL (queries, joins, filtering, reporting)
- Business Intelligence & Visualization: Power BI dashboard design, Microsoft Excel (formulas, pivot tables, data cleaning)
- Statistics & Modeling: Statistics & Probability, Predictive Modeling, Feature Engineering, Model Evaluation
- Data Quality & Governance: data validation, reconciliation, accuracy checks, documentation of methods and assumptions
- Currently expanding hands-on proficiency in Tableau and Excel VBA / macro-driven automation
- Tools & Collaboration: Git-based version control, VS Code, Microsoft PowerPoint and Word for stakeholder reporting

PROFESSIONAL EXPERIENCE

Data Science Intern — QSpiders, Chennai

Jan 2026 – Present

- Perform exploratory data analysis on structured datasets using Python and SQL to uncover trends, patterns, and anomalies that inform business decisions.
- Build interactive Power BI dashboards to visualize key performance indicators, improving how stakeholders understand and act on data-driven insights.
- Write SQL queries for data extraction, filtering, joins, and reporting; perform data quality checks to validate sources and ensure consistent, reliable information.
- Apply statistical and machine learning fundamentals to support predictive analysis and scenario evaluation.
- Prepare data summaries and presentations using Excel and PowerPoint for cross-functional stakeholders.

TECHNICAL PROJECTS

AI-Driven Rental Price Prediction and Visualization

Python, SQL, Power BI

- Built and validated a Python-based predictive model estimating rental prices from property and location features, applying feature engineering and iterative tuning to improve accuracy.
- Performed data cleaning and preprocessing on real-world datasets to improve data quality and model reliability.
- Designed interactive Power BI dashboards to visualize pricing trends and support data-driven decision-making, translating technical outputs into clear business visuals.

Live Stock Market Prediction and News Analysis

Python

- Combined historical market data with news sentiment analysis to build a predictive model forecasting stock trends.
- Applied exploratory data analysis and feature engineering across structured and unstructured data sources to improve prediction accuracy.

Integrated Multi-Bank User Management System

Python, SQL, HTML, CSS

- Developed a full-stack application with SQL-backed storage to manage multi-account transactions and user authentication.
- Applied rigorous data validation and error handling practices to maintain data integrity across modules.

EDUCATION

B.Tech, Information Technology — CGPA: 8.0

2022 – 2026

Rajiv Gandhi College of Engineering and Technology

Higher Secondary Certificate: 69% | Secondary School Leaving Certificate: 72.6%

CERTIFICATIONS

- Python Programming — MSME Technology Centre
- HTML Certification — IIT Bombay (Spoken Tutorial) — Scored 90%
- C and C++ Programming
- Workshops on AI and Emerging Technologies

ACHIEVEMENTS & ACTIVITIES

- Presented a paper on “Mobile-Based Debit Card Blocking System” at NCEIA 2025
- Executive Member, Science Club
- Event Coordinator, Mathematics Club
- Volunteer, NSS and Election Booth Duty

LANGUAGES

English (Fluent) | Tamil (Fluent) | Hindi (Intermediate)
